Elle se rapporte à toute la période touchant l'histoire de l'Amérique, et tout particulièrement à celle de la guerre de la Révolution et aux administrations présidentielles successives. Elle comprend une grande collection de copies de manuscrits se rapportant à l'Amérique, conservés dans les archives d'Espagne, de France et de Grande-Bretagne. Cette collection s'est tellement agrandie qu'il est en ce moment impossible sans la consulter, d'écrire sur une période quelconque de l'histoire des Etats-Unis. — **O** : 1.540. — **P** : 8.880 sans compter les publications annuelles et celles des sociétés savantes. — **Q** : $ 356.000 pour imprimerie et reliure ; $ 1.396.312 pour l'administration : $ 108.000 pour l'achat des livres. — **Qb** : $ 1.860.312. (sur fiches par auteurs et matières). — **U** : La bibliothèque prête ses livres à certains membres du Gouvernement. En dehors du prêt de livres aux fonctionnaires du Gouvernement, il existe un prêt très important d'ouvrages à d'autres bibliothèques. Ce prêt rayonne dans toute l'étendue du pays et permet aux étudiants et aux investigateurs qui ne peuvent se rendre à Washington, de consulter les livres dont ils ont besoin. Ce service est connu sous le nom d'*Inter-library loan system*. — **Ua** : 108.244. — **Ub** : 496.330. A la circulation des ouvrages au dehors de la Bibliothèque et à l'usage des livres dans les salles de lecture, il faut ajouter celui qu'en font les étudiants qui jouissent du privilège de l'*accès libre* aux rayons. Cet usage est encore plus important et probablement non moins étendu que les autres.

Les relations suivies que les Observatoires astronomiques ont entre eux nous ont permis de donner des renseignements exacts pour les quelques Observatoires (19 pour 100) qui n'ont pas répondu à nos demandes de renseignements.

Il n'existe pas de source d'informations sûres pour les autres Instituts scientifiques. *Les moins importants*, qu'il n'y avait pas lieu de décrire et ceux qui n'ont pas envoyé de renseignements, ou dont les renseignements sont parvenus trop tard, ont été omis ou simplement nommés.

Les Notices qui suivent ont été envoyées par les Instituts eux-mêmes. Nous prions les Directeurs d'Instituts scientifiques de nous envoyer des Notices et de nous signaler les omissions.

Institut alpin du Lautaret *LAUTARET* (Hautes-Alpes) (1929). — Fondé en 1916 par le Touring Club de France. — **M. Mirande.** Au milieu d'un jardin alpin s'élève un chalet construit en pierres, de style haut-alpin, abritant un petit musée, un laboratoire de Botanique et des chambres pour étudiants ou travailleurs scientifiques. Le musée est surtout un musée ethnographique : il représente la reconstitution, à l'aide de meubles et d'objets d'art anciens et régionaux, d'un *intérieur* haut-alpin. Il contient en outre, une Collection minéralogique et zoologique de la région du Lautaret. Le jardin alpin contient des massifs rocailleux représentant les principales régions montagneuses du Globe, et où sont cultivées les espèces caractéristiques de ces régions. A côté de ces massifs se trouve un jardin botanique où, sur vingt-deux plates bandes se trouve une Collection, rangée en ordre systématique, des *Plantes caractéristiques des Alpes occidentales*. Le jardin contient, en outre, de vastes pelouses naturelles où pousse la flore même du col du Lautaret, et des portions de terrain destinées aux cultures expérimentales. Une bourse annuelle de 2.000 francs pour un séjour de deux mois (fondation de Blonay), destinée à des études de botanique alpine, est attachée à cet établissement. — **N** : Adresser la correspondance au **Laboratoire de Botanique, Faculté des Sciences, Grenoble** (Isère).

Ségur 02-56 ; **Sérothérapie.** 21, rue d'Alleray et à *GARCHES* (Seine-et-Oise). — L'Institut Pasteur poursuit des recherches scientifiques dans les diverses voies ouvertes par son illustre fondateur : Biologie des microbes pathogènes pour l'homme et les animaux ; Pathogénie des affections qu'ils occasionnent ; modes de transmission de ces infections ; moyens de lutte contre les maladies microbiennes ; Vaccinations. Sérothérapie ; Chimiothérapie (des services pratiques préparent les vaccins et sérums reconnus efficaces). Chimie et Physiologie des microbes et des produits biologiques ; étude des microbes utiles pour les industries diverses des fermentations (brasserie, distillerie, vinification, etc.), les industries laitières, etc. Microbes du sol et Physiologie végétale. Préparation de produits chimiques destinés à la thérapeutique des maladies microbiennes. Hôpital pour malades contagieuses où sont appliquées les nouvelles méthodes thérapeutiques. L'Institut Pasteur a été fondé par souscription publique à la suite de la découverte de la vaccination antirabique. Il a été inauguré en 1888 pour la partie (21-25, rue Dutot) où se trouve actuellement la Microbiologie, et en 1900 pour la Chimie biologique (22-28, rue Dutot) et l'Hôpital. — Filiales de l'Institut Pasteur à Lille, Alger, Tunis, Tanger, Nha-Trang, Saïgon, Brazzaville, Athènes, Dakar, Kindia, Téhéran. — **H : E. Roux,** Directeur ; **A. Calmette, L. Martin,** Sous-Directeurs : **L. Fontès,** Econome.

SERVICE DE RECHERCHES ORIGINALES ET ENSEIGNEMENT

Services de Microbiologie : Professeurs : **A. Calmette, A. Borrel, M. Nicolle, A. Marie, A. Besredka, E. Duiardin Beaumetz, C. Levaditi, M. Weinberg, R. Legroux, J. Dumas, L. Nègre, A. Boquet, A. Berthelot, E. Wollman, J. Magrou, L. Cotoni, E. Cesari,** Chefs de Laboratoire.

Service de Physiologie : Professeurs : **C. Delezenne,** Chef de Service. — **E Pozerski,** Mme **Petit-Dutaillis,** chefs de laboratoire.

Services de Microbiologie coloniale : Professeurs : **F. Mesnil, E. Marchoux, E. Roubaud, W. Pérard, W. Lwoff,** assistants.

Un cours annuel, comprenant une centaine de leçons suivies de travaux pratiques, est fait en commun sous la direction du Dr **A. Calmette,** par les services ci-dessus énumérés. Des cours élémentaires de microbiologie, d'histologie pathologique, spécialement destinés aux internes des hôpitaux, sont faits aux laboratoires de Sérothérapie sous la direction de L. Martin et A. Pettit.

Services de Chimie : *a. Chimie biologique* (avec cours et laboratoire d'enseignement de la Sorbonne) : **G. Bertrand,** Professeur ; **M. Javillier,** Maître de Conférences. — *b. Chimie des toxi-infections* (avec conférences de la Sorbonne) : **A. Fernbach,** Professeur ; **J. Crolbois J. Wolff, M. Schœn,** chefs de laboratoire. — *c Chimie agricole* : **P. Mazé,** Chef du Service. — *d Chimie thérapeutique* : **L. Fourneau,** Chef de Service, **W. Tréfouël, A. Vila,** Assistants. — *e Chimie physique* : **H. Mouton, J. Duclaux, G. Malfitano,** Chefs de Laboratoire. — *Laboratoires annexes* : **A. Trillat.** — *Microbiologie agricole.* Laboratoire à Brie-Comte-Robert (Seine-et-Marne). Directeur : **S. Winogradsky.**

SERVICES PRATIQUES

Vaccination antirabique : **L. Cruveilhier,** Médecin traitant ; **Y. Manouélian, J. Viala,** Assistants. *Vaccins pastoriens animaux* : **J. Bridré, C. Truche, E. Fernbach, E. Staub,** Chefs de Laboratoires. — *Vaccins humains* : **A. Salimbeni,** Chef de service. — *Réaction de Wassermann* : **S. Mutermilch.**

Virus pour les rongeurs : Mme **M. Danysz.**

Sérothérapie : **L. Martin,** Directeur ; **E. Tendron,** Chef du Service pharmaceutique ; **G. Loiseau,** Chef de laboratoire.

Services vétérinaires : à Garches, **G. Ramon,** Vétérinaire-chef ; **J. Descombey,** Vétérinaire-adjoint. **Vallot,** Vétérinaire-adjoint. A Paris, rue d'Ulm, **V. Frasey,** Vétérinaire résident.

Photographie : W. Jeantet. — *Bibliothèque* : **W. Camail**

Hôpital Pasteur : **L. Martin**, Médecin-Directeur ; **A. Veillon**, **H. Darré**, Médecins-Chefs de Service ; **R. Dujarric de la Rivière**, **A. Lafaille**, **R. Martin**, Médecins Assistants ; **E. Tendron**, Pharmacien ; **G. Chuit**, Econome.

Laboratoire d'Essais du Conservatoire National des Arts et Métiers (1929). - 292, rue Saint-Martin, *PARIS* (3e). Tél. : Archives-10.41 et 44.84. — Fondé en 1901, dans le but de permettre aux industriels, commerçants et particuliers de faire essayer, moyennant le paiement de certaines taxes, des matières premières, des produits manufacturés et tous appareils ou instruments. Sa compétence s'étend à tous les essais de physique, de chimie, de mécanique, de machines, de métaux, de matériaux de construction, de combustibles et de matières végétales. Le Laboratoire d'Essais, qui avait été chargé en 1901, du service de vérification des alcoomètres et densimètres, assure, en outre, depuis 1919 la vérification et le contrôle, rendus obligatoires par la loi du 14 août 1918, des thermomètres médicaux.

Moberg.** Assistant Professor of Oceanography ; **P. S. Barnhart.** Associate in Oceanography ; **S. W. Chambers.** Associate in Physical Oceanography and about ten other associates and research assistants. Research laboratories for oceanography, marine biology and genetics. Local collections of marine animals and plants. — Public Museum and Aquarium.

Marine Biological Station. University of Southern California. *LOS ANGELES* (Cal.) (1928). — Director : **F. M. Baldwin.**

Forest Products Laboratory (1920). *MADISON*, Wisc. (Fondé en 1910). **C. P. Winslow.** Director. — Federal Institution, maintained by U. S. Forest Service. — Purpose : to secure maximum economy and efficiency in the production and utilization of forest products, with a view to prolonging the American timber supply and encouraging the practice of forestry through greater financial returns ; to render practical assistance to the manufacturers and users of wood and wood products.

Wisconsin Geological and Natural History Survey. *MADISON* (Wisc.) (1928). — **E. F. Bean.** Director ; **H. R. Aldrich.** Assistant State Geologist. *Geology Division* : **E. F. Bean.** In Charge ; **H. R. Aldrich,** Geologist. — *Natural History Division* : **E. A. Birge.** — *Division of Soils* : **A. R. Whitson.** *Publications* : bulletins, road pamphlets, biennial reports and maps The bulletins are issued in four series : *Scientific Series* : 14 bulletins in this series. The bulletins consist of original contributions to the geology and natural history of the state which are of scientific interest rather than of economic importance. — *Economic series* : 24 bulletins, includes those bulletins whose interest is chiefly practical and economic. — *Educational series* : 9 bulletins for use by teachers and in the schools. — *Soil series* : 49 bulletins, includes the bulletins prepared by the Soils Division. — Hydrographic, River profile maps, a Geological Model of Wisconsin, a geology and road Map of Wisconsin County Topographic Mapse, and an educational Collection of Wisconsin Rocks and Minerals.

Bureau of Science. *MANILA* (Philippine Islands) (Iles Philippines) (1929). Founded : 1901 as the Bureau of Government Laboratories, becoming the Bureau of Science in 1905. The central scientific institution of the Philippine Government, maintaining the following divisions : Biological laboratory (bacteriology and the medical sciences), serum laboratory, mining and geology, botany, plant physiology, plant pathology, entomology, fisheries, ornithology, organic chemistry, inorganic chemistry, soils and fertilizers, physical testing laboratories, library, photography, power plant, and aquarium. The main plant is in Manila : the serum laboratory at Alabang, 25 km. south of Manila. — Director : **W. H. Brown.** *Publications* : the *Philippine Journal of Science* (monthly), *Mineral Resources* (biennial), *Annual report* (annual,) *Monographs* (occasional), *Popular bulletins* (occasional).

Philippine Health Service (1929). *MANILA* (Philippine Islands) (Iles Philippines). — Director : **Jacobo Fajardo,** M. D.

Public Museum of the City of Milwaukee. *MILWAUKEE* (Wisc.) (1928). (Founded 1882). — **D** : Nov. 1 st. to Apr. 30 th., 9 a. m. to 9 p. m. ; May 1 st. to Oct. 31 st., 9 a. m. to 5,30 p. m. — **E***b* : Admission free at all times. — **H** : Director : **S. A. Barrett.** — General Natural History, Physical Anthropology, Geological History of Man, Archeology, Ethnology, History, Numismatics, Musical Instruments, Ceramics, Textiles, Arms and Armor. — This Museum is specializing on the building of environmental or habitat groups and has extensive groups in the following subjects : North American Indians, history, mammals, birds, fishes, invertebrates, botany, and geology. — **K***a* : Extensive archeological exhibits. — **K***b* : General geological collection and extensive collections of local paleontology. — **K***c* : Birds, mammals, fishes, reptiles, batrachians, insectes, molluscs, crustaceans, radiates, protozoans. — **K***d* : General Botany and Dendrology. — **L***a* : Coppers and associated minerals of the Lake Superior region : minerals of the state of Wisconsin. — **L***b* : General local collections from the Milwaukee region and Wisconsin and especially fossils of the State of Wisconsin. — **L***c* : Birds, mammals and insects of Wisconsin especially. — **L***d* : Wisconsin herbarium, mushrooms of Wisconsin, including many wax casts ang groups. — **M** : Considerable number of type specimens among the insects and the invertebrate fossils. — **N** : Total number of specimens in the Museum : 530.000. Reference Library contains 40.000 books Loan collection of lantern slides, 65,500 slides. Total number of persons served ca. 1/1 4 millions per annum (includes visitors to eschibits and those attending lectures).

Museum of Natural History. University of Minnesota (1929), *MINNEAPOLIS* (Minn.). — Habitat Groups and study collections. Loans small groups to schools and various institutions. Publishes annual report and *Occasional Papers*. Lectures given to school groups and an annual Sunday afternoon course of lectures to general public. Director **T. S. Roberts** ; Curator : **W. Kilgore** ; Preparator : **W. J. Breckenridge.**

Louisiana State Museum (1929), *NEW ORLEANS* (La) (Founded 1906). — **D** : 9 m.-5 p. m. — **H** : **R. Glenk**, Curator. — **L***a* : 150.000 spec. — **L***b* : 45.000 spec. — **L***c* : 100.000 spec. — **L***d* : 15.000 spec. — **N** : Commercia exhibits 20.000 spec. Large number of models of machinery.

Carnegie Foundation for the Advancement of Teaching (1929), 522 Fifth Avenue, *NEW-YORK CITY* (Founded 1905, Carnegie). — The Foundation grants retiring allowances to professors, and pensions to their widows, in a group of ninety-four universities and colleges ; the institutions beings chosen in the Universited States, Canada and Newfoundland for their educational qualifications. Its collections include all classes of mammals, birds and reptiles, representing every continent ; 2.861 specimens, representing 1.069 species of mammals, birds and reptiles ; the membership of the New-York Zoological Society was 2.721 (on janv. 1 st., 1929).

New York Psychiatric Institute and Hospital (1929), 722 West 168th Street, *NEW YORK CITY* (N. Y.). G. H. Kirby, Director. Teaching and research in psychiatry, neuropathology and allied sciences. Training courses in neurology and internal medicine. Reports and special studies published.

The American Museum of Natural History ; 1929, 77 th. street and Central Park West, *NEW YORK CITY*. (Founded 1869). — Open free every day in the year : week-days from 9 a. m.-5 p. m., Sundays, 1-5 p. m. — *Scientific staff for* 1929 : **C. H. Sherwood**, Director ; **J. L. Clark**, Assistant Director, Preparation ; **W. M. Faunce**, Assistant to the Director. — I. *Division of Invertebrate, Geology, Geography and Astronomy* : **H. Fairfield Osborn**, Curator in Chief ; Astronomy : **G. Clyde Fisher**, Curator ; Meteorology : **H. P. Whitlock**, Curator ; Department of Geology and Palæontology : **H. Fairfield Osborn**, Honorary Curator-in Chief ; 1. Vertebrate Paleontology : **W. Granger**, Curator of Fossil Mammals ; **B. Brown**, Curator of Fossil Reptiles ; 2. Geology and Invertebrate Paleontology : **C. A. Reeds**, Curator. — II. *Division of Zoology and Comparative* : **F. Michler Chapman**, Curator in Chief ; Lower Invertebrates : **R. Waldo Miner**, Curator ; Entomology : **F. E. Lutz**, Curator ; Ichthyology : **W. K. Gregory**, Curator ; **J. T. Nichols**, Curator of Recent Fishes ; Herpetology : **G. Kingsley Noble**, Curator ; Ornithology : **F. M. Chapman**, Curator in-Chief ; **R. Cushman Murphy**, Curator of Oceanic Birds ; Mammalogy : **H. E. Anthony**, Curator ; Comparative and Human Anatomy : **W. K. Gregory**, Curator. — III. *Division of Anthropology* : Anthropology : **C. Wissler**, Curator-in-Chief ; **N. C. Nelson**, Curator of Prehistoric Archæology. — IV. *Division of Asiatic exploration and research* : **R. C. Andrews**, Curator-in-Chief ; **W. Granger**, Curator in Palæontology. — V. *Division of Education and Publications* : **George H. Sherwood**, Curator-in-Chief ; Director of Public Health : **George H. Sherwood**, Curator-in-Chief ; **G. Clyde Fisher**, Curator of Visual Instruction ; Library and Publications : **Ida R. Hood**, Acting Curator ; Printing and Publishing : **Hawthorne Daniel**, Curator, and Editor of Natural History. — *General Collections*. — Illustrating the Life of the Land and Sea from all regions of the Earth ; Birds, Fishes, Mammals, Insects, Reptiles, Woods of North America, Primitive Races of Men and their Arts ; maintains a Free Public Reference Library, and during the season October-May, provides various public evening lectures on Science and Travel and maintains a series of lectures for school children of all grades. — *Collections* : American Indian, Morgan Coll. of Gems and Gem Materials ; the Jesup Coll. of North American Woods ; Habitat Groups of Birds ; Meteorites ; Sledges used by Rear Admiral Peary and Captain Amundsen on their trips to the North and South Poles respectively ; Evolution of the Horse ; Animals of the World, both past and present, including long extinct Giant Reptiles ; life and industries of the native races of the South Sea Islands, Philippine Islands, Asia, Africa, Mexico and South America, and especially the Esquimo and Indians of North America. — More than 11.480 members are now contributing to explorations in America and other parts of the world. — *Library* : 105.000 volumes, many of which are monographs of extreme interest and rarity. — *Publications* : *Memoirs* (1893-XIV ; n. s. I-III) ; *Bulletin* 1881-I-LVIII) ; *Anthropological Papers* (1906-I-XXXI) ; *Natural History Journal*, 1900, (I-XXIX) ; *Novitates* (1921-1-365).

The Rockefeller Institute for Medical Research (1929), *NEW-YORK CITY* (Founded 1901, J. D. Rockefeller. — *Objects* : to conduct, assist, and encourage investigations

in the sciences and arts of hygiene, medicine and surgery, and allied subjects, for the protection of the health of the people, and the improved treatment of disease and injury. — Director of Research and of the Laboratories : **S. Flexner** ; Director of the Hospital : **R. Cole** ; Acting Director of the Department of Animal Pathology : **C. Ten Broeck**. — *Library* : ca. 90,000 vols. — *Publications* : *Journal of Experimental Medicine* ; *Journal of General Physiology* ; *Studies from The Rockefeller Institute for Medical Research and Monographs of the Rockefeller Institute for Medical Research.*

U. S. Weather Bureau. *NEW YORK CITY* (Founded 1871). — **J. H. Scarr**, Meteorologist in charge.

Oklahoma Geological Survey, *NORMAN* (Okla.) (1908). — **Ch. N. Gould**, Director. Department organized in 1908. — *Publications* : Bulletins (45), Circulars (17), and numerous maps and charts. Lists of publications and information on resources of State furnished on application.

University of Oklahoma. Museum of Zoology (1920), *NORMAN* (Okla.). — **A. Richards**, Director ; **A. I. Ortenburger**, Curator of Vertebrates.

U. S. Magnetic Observatory Ewa. *OAHU* (Hawaii). — (Founded 1902). — About 21 km. west of the city of Honolulu. — Milne Shaw seismograph comprising two horizontal pendulums mounted at right angles to each other one being in the true meridian.

Hopkins Marine Station of Stanford University (1929) (formerly Hopkins Seaside Laboratory), *PACIFIC GROVE* (Monterey Bay, Cal. (Founded 1891). — Director : **W. K. Fisher** ; **Alexander Agassiz** : Embryology, Zoology and Oceanography ; **Jacques Lode** : Laboratory, Physiology, Bacteriology, Biophysics, Biochemistry. Permanent staff : **L. B. Becking**. Physiology : **W. K. Fisher**. Zoology : **T. Hashimoto**. Biochemistry : **H. Heath**. Embryology : **G. E. Mac Ginitie**. Ecology : **H. Mestre**. Biophysics : **C. B. van Niel**. Bacteriology : **T. Skogsberg**. Oceanography, Marine Biology : **C. V. Taylor**. Protozoology. — Open all the year, gratuitously, for biological investigations. Instruction from March to August. Salt and fresh water aquaria available ; microscopes and principal reagents. — Library and collections of marine animals. — *Publication* ; *Contributions from the Hopkins Seaside Laboratory* (discontinued).

Academy of Natural Sciences of Philadelphia (1929), Logan Square, *PHILADELPHIA* (Penna). — Managing Director : **C. M. B. Cadwalader** ; Secretary : **James A. G. Rehn**. — Large Collection in all branches of Zoology (Birds 90.000, Reptiles 20.000, Mamm. 15.000, Insects 1.500.000, Fishes 100.000, Mollusks 1.500.000), Botany (ca. 1.000.000 sheets), Geology, Archeology, etc. Local Coll. in all branches.

Philadelphia Zoological Garden (1928), 34th St. and Girard Ave., *PHILADELPHIA* (Penna). — Director : **C. Emerson Brown**. — 40 acres ; 3.000 specimens (Birds, Mammals, Reptiles).

The Drexel Institute of Art, Science and Industry, *PHILADELPHIA* (Penna) (1928). (Founded 1892, A. J. Drexel). Collegiate courses in Engineering, Home Economics, Library Science, Secretarial Studies, Business Administration ; coeducational ; Day course of best collegiate standards ; Evening School, industrial, with 24 specialized courses. Industrial School for men and women. — The Museum of the Institute contains collections of furniture, ceramics, wood-carvings, bronzes, prints, engravings, metal-work, embroideries, and textiles, many of great rarity and all of much interest and value. — Picture Gallery. — Library : ca. 40.000 vols.

The Franklin Institute of the State of Pennsylvania (1929), 15, South Seventh Street. *PHILADELPHIA* (Penna) (Founded 1824). — Promotion of the Mechanic Arts. — President : **Nathan Hayward** ; Secretary : **H. McClenahan**. — Weekly lectures on scientific and technical subjects ; monthly meetings at which recent discoveries are discussed ; reports upon all new and useful machines, inventions and discoveries submitted to it. — *Publications* : *The Journal of the Franklin Institute*, now in its 104 ed year. — *Library* : 89.247 volumes ; 28.741 pamphlets ; 4.400 maps and chart and photographs, Librarian : **A. Rigling**. — *Bartol Research Foundation*, established by the bequest of Henry W. Bartol for the maintenance of research in the physical sciences, especially electricity Research Fellows, 8 ; operating staff, 6 : Director : **Wm. F. G. Swann**.

The University Museum. *PHILADELPHIA*, Penna (1929) (Founded 1887). — Open week days 10 to 5 ; Sundays 2 to 6 free. — **N...**, Director. — For the collection and preservation of archeological and ethnological exhibits and ancient works of art. Excavations in Egypt, Palestine and Mesopotamia. — Sections : Egyptian, Babylonian, Greco-Roman, The Far East, The Middle East, General Ethnology, American Archeology and Ethnology. — Free to the public. — Quarterly publication : *The Museum Journal*.

Wistar Institute of Anatomy and Biology. *PHILADELPHIA* (Penna) (1929). Founded 1808. — Materials and equipment for the more advanced study of anatomy and for the prosecution of researches in anatomy and other biological subjects. — Board of nine Managers elected annually by the Trustees of the University of Pennsylvania. — **E. B. Morris**, President ; **M. J. Greeman**, Director. — Museum of human and comparative anatomy intended especially for teachers and students. Large collection of prehistoric North and South American Indian skulls, of different ages, modern Esquiman skulls of different ages, human brains, embryological collection. — Research of the Institute chiefly in the fields of neurology, embryology, genetics, biochemistry, biophysics, Large colony of albino rats is maintained for research purposes. — *Publications* : *The Bulletin of the Wistar Institute* ; *Journal of Morphology and Physiology* ; *The Journal of Comparative Neurology* ; *The American Journal of Anatomy* ; *The Anatomical Record* ; *The Journal of Experimental Zoology* ; *American Anatomical Memoirs* ; *American Journal of Physical Anthropology* : *Bibliographic Service*. Maintains a complete press for printing and publishing biological research.

Carnegie Museum (Department of the Carnegie Institute) (1929), Schenley Park, *PITTSBURGH*, Penna (Founded 1895). — **A. Avinoff**, Director. — Natural history, Archeological, Ethnological and Decorative Art specimens. The most notable collections are those illustrating the vertebrate paleontology of North America. The Museum contains one of the most important collections of *Fossil Sauropod Dinosaurs* in the world, a very large entomological collection, about 100.000 specimens of birds, chiefly from North and South America, the Frick collection of Africal mammals, a very important botanical collection, one of the most important collections of South American fishes in existence, and a beautiful collection illustrating the arts and crafts of the American Indian.

Weidlein**, Director ; **E. W. Tillotson**, **W. A. Hamor**, **H. S. Coleman**, **G. D Beal**, Assistant Directors. — Essential aim : the Creation of new knowledge by scientific investigation, in accordance with the Industrial Fellowship System of R. K. Duncan (1868-1914). There are 62 Industrial Fellowships in operation (July 1, 1929), the purpose of which is to find new materials, new processes and new uses of products, for industrial development, and to advance manufacturing operations through the application of scientific methods to industry. **L. H. Cretcher** is Head of the Department of Research in Pure Chemistry which is maintained for the purpose of investigating fundamental problems not suggested by industry.

Park Museum (1929), Roger Williams Park *PROVIDENCE* Rhode Island (Founded 1894). — **W. L. Bryant**, Director. — **D** : week days 10 a. m. to 5 p. m. ; Sundays 2 to 5 p. m. — **K** : Mineralogy, Geology, Paleontology, Ethnology, Botanic, Phylatelic. — **L** : Mineralogy, Geology, Paleontology, Zoology, Botanic. — **M** : Manly-Hardy collection

of North American birds considered one of the finest ; a complete collection of R. I. birds (with the exception of 2 or 3 species).

The Franz Theodore Stone Laboratory of Ohio State University, *PUTIN-BAY* (Ohio) (Founded 1895). — Situated on Gibraltar Island Lake Erie. — Open for research June 20 to Sept. 1. Instruction given June 20 to July 31. — Director : **R. C. Osburn** — Equipment. — Residence and laboratory buildings ; gasoline launch ; row boats ; aquaria ; collecting nets ect. ; all necessary laboratory instruments, apparatus, etc. — Library of standard boks, government bulletins, authors reprints.

Geological Museum of South Dakota. State School of Mines (1929), *RAPID CITY* (South Dakota) (Founded 1885). **D** : 8 a. m. to 5. p. m. daily except Sunday. — **Ka**, **K***b* : display collections and survey collections. **La**, **L***b* : Large collection from the *Black Hills* and surround country including the *White River Badlands.*

The Missouri Bureau of Geology and Mines (1929), *ROLLA* (Missouri). State Bureau. **H. A. Buehler**, Director. Reports on Geology and Economic mineral resources of Missouri. — Library : 5.000 vols : museum : 2.000 specimens.

Missouri Botanical Garden (1929), *SAINT-LOUIS* (Mo.). — Director : **G. T. Moore.** — Issues *Monthly Bulletin and Quarterly Annals.* Maintains graduate laboratories for Shaw School of Botany, Washington University. — Herbarium 1.060.000 sheets. Library : 112.000 vols and pamphlets.

Steinhart Aquarium of the California Academy of Sciences (1929). Golden Gate Park, *SAN FRANCISCO*, California (Founded 1853, opened 1914). — **D** : Every day, 10 a. m. to 5 p. m. — **H** : **C. E. Gruncky**, President ; **B. W. Evermann**, Director ; **Suzy M. Peers**, Secretary. — **K** : Curator : **Alice Eatwood** ; Botany, **E. P. van Duzee** ; Entomology, **J. R. Glevin** ; Herpetology, **B. W. Evermann** ; Ichthyology, **W. K. Fisher** ; Invertebrate Zoology, **H. S. Swarth** ; Mammalogy and Ornithology, **G. D. Hanna** ; Paleontology, fresh- and salt-water fishes, native and foreign ; aquatic mammals and birds.

The Edward L. Trudeau Foundation (1929), *SARANAC LAKE* N. Y. (Founded 1916). — **E. R. Baldwin**, Director. — Objects : to maintain laboratories and carry on *research* into the nature, causes and treatment of tuberculosis ; to maintain regular courses of instruction for physicians and others in the most advanced knowledge of tuberculosis under the name of the *Trudeau School of Tuberculosis* ; to offer young physicians and others the opportunities for research work while undergoing treatment for tuberculosis, through the establishment of *fellowships*. — Endowment fund : $ 500.000.

Illinois State Museum (1929), *SPRINGFIELD* (Ill.) (Founded 1877). — **D** : Monday to Saturday inclusive, 8 a. m. till 5 p. m. — **H** : **A. R. Crook**, Chief. — Paleontology 60.000 sp., Conchyology 10.000 sp., Ornithology 3.000 sp. : Mammals 500 sp. ; Archæology 3.000 sp., Mineralogy 10.000 sp., Miscellaneous, 5.000 sp.

Food Research Institute (1929), *STANFORD UNIVERSITY* Cal. (Founded 1921, Carnegie Corporation). Directors : **C. L. Alsberg, J. S. Davis. A. E. Taylor.** *Object* : to investigate significant problems of food production, distribution and consumption from the standpoint of their bearing upon national economy and well-being. *Publications* : Wheat Studies, Fats and Oils Studies, and Miscellaneous Publications embodying the results of research work, and articles in technical periodicals.

Public Museum, *STATEN ISLAND* (N. Y.) (Founded 1907). — **D** : 10 a. m. to 5 p. m. daily ; 2 to 5 p. m. Sunday. — **H** : **C. W. Leng,** Director. — **Kc** : Ores of Metals. — **Kc** : Shells, Butterflies, Birds, Beetles, etc. — **L** : Geology of Staten Island. — **Lc** : Zoology of Staten Island. — **Ld** : Herbarium of Staten Island. — **N** : Staten Island Indian and Historical Relics.

Roosevelt Wild Life Forest Experiment Station (1929), The New-York State College of Forestry, *SYRACUSE*, N. Y. (Founded 1919). — Director : **C. E. Johnson.** Investigates wild life problems as related to forestry, including fur, game, furbearing animals and other aspects of the relation of animals to forests. Investigations have been made largely in New-York State, but special gifts have permitted investigations in the Yellowstone National Park. Is building up a special wild life library. — *Publications* : *Roosevelt Wild Life Bulletin* ; *Roosevelt Wild Life Annals.* Exchanges are solicited ; address all communications to the *Director*, to the above given address.

New Jersey State Museum (1929), State House, *TRENTON*, N. J. (Founded 1894). — **D** : daily, except Sundays, 9 a. m. to 5 p. m. ; Saturday, 9 a. m. to 12 noon. — **H** : Mrs. **K. B. Greywacz,** Director. — **L** : Minerals, rocks, minerals, birds, fish, reptiles, plants and leading manufactures, of New Jersey. Special exhibits on subjects of general interest are held from time to time. The Museum keeps in close affiliation with the schools of the State by lending various collections : Lantern Slides, Motion Picture Films, Stereographs, Natural History cases, Industrial Process Charts, Mounted Pictures, etc...

Desert Laboratory of the Carnegie Institution of Washington (1929) *TUCSON* (Ariz.). — **F. Shreve,** Director.

Seismological Station and Magnetic Observatory (1929), about 15 kl. east of the city of *TUCSON* (Ariz.) (Founded 1909). — Eschenhagen Magnetograph ; Wood-Anderson seismograph.

Agricultural Experiment Station (1929) *URBANA* (Illinois) (Founded 1887). — **H** : **W. Mumford** Director. — Departments : Agronomy (soils and crops) ; Animal Husbandry ; Agricultural Economics ; Dairy ; Farm Mechanics ; Horticulture ; Farm Organization and Management ; Home Economics Department. — *Publications* : *Bulletins* (1888) I to 337 (Aug. 1929) ; *Circulars* (1897), I to 347 (Aug. 1929) ; *County Soil Reports* I (1911), to 43 (July 1929).

Engineering Experiment Station of the University of Illinois (1929), *URBANA* (Ill). (Founded 1903). — **M. S. Ketchum,** Director. All members of the teaching staff of the College are encouraged to engage in scientific research either directly or in cooperation with the research corps, which consists of 33 full-time investigators, 6 part time assistants, and 23 research graduate assistants, who devoted half of their time to research work. — *Publications* : 193 bulletins and 17 circulars.

Illinois State Water Survey Division, 77, Chemistry Building, University of Illinois, *URBANA* (Ill) (1928) (Founded 1895). — Chief : **A. M. Buswell.** — *Activities* : Sanitary and Mineral Water Analyses, investigation of water resources, problems of water purification, and methods of sewage disposal. — *Publications* : *Illinois State Water Survey Bulletins reporting studies on water resources and sewage treatment.*

State Geological Survey Division of the Department of Registration and Education of State of Illinois (1929), 305 Ceramics Bldg., University of Illinois, *URBANA* (Ill.) (Founded 1905). — **M. M. Leighton,** Chief. — *Publications* : *State Geological Survey Bulletins,*

Monographs, Illinois Mining Investigations Bulletins, Reports of Investigations, Educational Series, and Press Bulletins : Geologic, economic, topographic, drainage and base maps.

Magnetic Observatory and Seismological Station of the United States Coast and Geodetic Siurvey. *SAN JUAN* (Puerto Rico) (1928) (Founded 1906). Magnetograph Established : transferred to San Juan, 1926 ; Bosch-Omori seismograph. — Observer in charge : **E. R. Hard**. — The Observatory is maintained by the U. S. Coast and Geodetic Survey. Official name, San Juan Magnetic Observatory.

U. S. Bureau of Fisheries. Department of Commerce. *WASHINGTON* (D. C.) (1928) (Founded 1871). Commissioner : **H. O'Malley** ; Deputy Commissioner : **L. Radcliffe** ; Librarian : **V. Burke**. — Special objects of inst., fisheries, fish-culture, results of scientific explorations. — **J** : Early history of the fish, fisheries, and fish culture. — **K** : 41.971. — **L** : 1500. — **P** : 310. — **T** : Library of Congress classification system and cards. — **U** : To Government libraries, state Universities and scientific societies. Laboratories : Washington (D. C.) ; Woods Hole (Mass.) ; Beaufort (N. C.) ; Fairport (Iowa). *Fish-cultural stations* ; ca. 40 main hatcheries in 32 states and numerous subhatcheries. *Publications* : *Bulletin o the Bureau of Fisheries* (annual from 1880 to date) ; *Report of the Commissioner*, with appendices (annual from 1871 to date) ; *Fisheries Service Bulletin* (monthly, from June, 1915, to date) ; *Statistical Bulletins, showing extent of special fisheries.*

Bureau of Labor Statistics (1928). *WASHINGTON* (D. C.). Commissioner : **E. Stewart.**

Carnegie Institution of Washington (1928). *WASHINGTON* (D. C.) (Founded 1902). — Purpose : encourage research and discovery. — **J. C. Merriam**, president : **E. Root**, chairman, Board of Trustees ; **W. Cameron Forbes**, secretary, Board of Trustees.

Division of Plant Biology (*see* STANFORD UNIVERSITY). — Department of Genetics (*see* COLD SPRING HARBOR). — Geophysical Laboratory, 2801 Upton Street, WASHINGTON, D. C. (1906) : **A. L. Day**, Director. — Tortugas Laboratory (*see* WASHINGTON). — Department of Embryology (*see* BALTIMORE). — Nutrition Laboratory (*see* BOSTON). — Department of Historical Research, 1140 Woodward Building, WASHINGTON, D. C. (1903). — Department of Meridian Astrometry (*see* ALBANY). — Mount Wilson Observatory (*see* OBSERVATORIES). — Department of Terrestrial Magnetism, 36th Street and Broad Branch Road, WASHINGTON, D. C. (1904) : **L. A. Bauer**, Director ; **J. A. Fleming**, Assistant Director. — Magnetic expeditions, laboratories, non-magnetic yacht *Carnegie* ; constants magnetic and electric, observations at the WATHEROO Magnetic Observatory in Western Australia (1919), and at the HUANCAYO Magnetic Observatory, Peru (1921). *Publications* : *Annual reports, Researches of the Dpt. of Terr. Magn.* — *Additional investigations* : **L. B. Mendel** (chemico-physical studies), of **T. H. Morgan** and **C. B. Bridges** (constitution of the germ-plasm), **E. A. Lowe** (palæography), **A. V. Kidder** and **S. G. Morley** (early American history and Middle American archæological research), **G. Sarton** (History of Science). — *General publications* : 600 vols.

LISTE D'ÉCHANGES

Les Savants inscrits sur cette Liste désirent échanger avec leurs Confrères les Mémoires originaux qu'ils ont publiés.

La désignation des sujets qui les intéresse précède leurs noms.

L'inscription dans cette liste est accordée gracieusement aux savants, *professeurs ou non*, qui en font la demande au **Directeur de l'Index Generalis**, *Sorbonne*, 45, *rue des Écoles*, **Paris** (5e).

Le Directeur désire que les additions à la liste d'échanges de la huitième édition de l'*Index Generalis* lui soient adressées le plus tôt possible. La liste de 1930 a été close le 1er juillet 1929.

L'inscription peut être demandée : soit pour les sujets indiqués dans la liste qui suit, soit pour des sujets différents de ceux-ci : le choix le plus large est laissé aux intéressés, *mais l'inscription est limitée pour chacun à trois catégories.*

Les Auteurs sont priés de signaler à leurs collègues que les travaux présentant un réel intérêt et *de les envoyer aussi au Directeur de l'***Index Generalis**.

Quelques personnes inscrites dans cette liste n'ont pas renouvelé leur inscription en 1927 : *le non-renouvellement de l'inscription en* 1930 *entraînera la radiation.*

PERSONNEL SAVANT

TABLE ALPHABÉTIQUE

Nous avons pu, du cours de l'impression du volume, tenir compte d'un certain nombre d'épreuves revisées qui nous sont arrivées en retard ; nous avons corrigé le texte relatif à quelques Universités ou grands Colleges, en nous reportant aux dites épreuves, mais nous n'avons pu corriger, pour ce qui les concerne, la table alphabétique ci-après.

Pour faciliter l'usage de la Table aphabétique générale.

Pour permettre de trouver rapidement dans une page les noms figurant dans la Table alphabétique, nous avons fait suivre le numéro de la page d'un nombre qui varie de (1) à (8). Ce nombre indique la partie de la page où on trouvera le nom. Il conviendra pour connaître l'ordre des divisions de se reporter au tableau ci-contre.

N. B. — Si un nom est suivi de 2 fois, 3 fois la même indication de page et de carré, c'est qu'il se trouve 2 fois, 3 fois, dans la même page et dans le même carré.
